

## Year 4 Autumn 2 Home learning

This half term the children will be learning about the rain forest in their geography lessons. We would like them to complete a piece of home learning to bring into school and share with their class. The possibilities are endless, but we would like their work to be presented to a high standard. Please bring your creation into school week commencing

Monday 15th December.

Examples of projects could be:

- A painting of a rainforest scene
- A model of a tree house (or make a real tree house?!)
- Write a story set in the jungle/rainforest
- Make a wild life documentary or video
  - Make rainforest animal puppets
- Make a poster about an endangered animal
  - Make a rainforest themed board game
- Make a fact file or information leaflet about the rainforest
  - Make a rainforest shoe box habitat
- Create a picture using camouflage or leaf printing
